Hiring Manager
Rogers
333 Bloor St E
Toronto, ON M4W 1G9

Dear Hiring Manager,

As an experienced Software Developer, the post for Software Engineer with Rogers sparked my interest. When reviewing the position requirements and your organization's website, I was excited to find that my qualifications and personal strengths align with your needs and mission.

I bring a comprehensive set of skills that I believe will be valuable to Rogers. During the tenure of my master's degree at Vellore Institute of Technology, Vellore India and my internship at Valeo, I honed my abilities in python programming, utilizing tableau, SQL and NoSQL databases providing a firm foundation for the offered role described in the job description. My latest stint with Descartes Systems group as a Network Analyst helped me further sharpen my python development and automation skills. My collaboration, people-centric nature, and compassion have afforded me excellent critical thinking skills.

I am excited to contribute my talents and proficiency in decision-making toward your team efforts. As an engaging communicator with a proven track record in development, my focus on building strong professional relationships has been a beneficial asset throughout my career.

Please review my enclosed resume for a more in-depth illustration of my work history and accomplishments. I would appreciate the opportunity to interview at your earliest convenience. I am eager to discuss how my personality and background fit the Software Engineer role. I am reachable at sylvesterranjithfrancis@gmail.com and at 548.333.4865 to further discuss the prospects of the role.

Thank you for your time and consideration of my candidacy.

Yours sincerely
Sylvester Ranjith Francis
